

Cookie Policy

Cookies are small files on your device to help customise your experience on this website.

We use cookies on our site to create a secure and effective website for all our customers.

Cookies allow you to choose log-in preferences, have the site remember your settings where applicable and also provide anonymous statistics to enable us to continually improve our website to give you the best possible experience.

- We never use the data gathered through cookies to contact you via post, email or phone
- We never share personal information gathered through cookies
- The cookies we use are completely safe and secure

What are cookies?

Cookies are small text files that are sent to and stored on your computer, smartphone or other device for accessing the internet, whenever you visit a website.

Cookies are useful because they allow a website to recognise a user's device. We use cookies for a variety of reasons, such as to determine preferences and to let visitors navigate between pages efficiently.

How can you manage your cookies?

The browsers of most computers, smartphones and other web-enabled devices are typically set up to accept cookies. If you wish to amend your cookie preferences for this website or any other websites, you can do this through your browser settings. Your browser's 'help' function will tell you how to do this.

Please be aware that cookies are often used to enable and improve certain functions on our website and if you choose to deactivate cookies, it will affect your ability to view our website properly.
